

What weight of meat per person to order?

We often get asked what weight of meat per person to order – in other words how much meat is needed for a certain number of people, so we have created this handy guide to help you.

Generally you would allow half a pound per person (225g) of boneless meat or three quarters of a pound (340g) per person of bone-in meat.

Boneless Meat	No of People	Bone-in meat
